1. The following is an examiner's statement of reasons for allowance: the Examiner found no teaching in the prior art that would render obvious the claimed method and structure for use in a geo-location system including "if said first measured interference level is equal to or less than said measured first threshold level, performing a geo-location process in said first operational system to obtain a location of said at least one mobile wireless terminal...if said measured second interference level is equal to or greater than said second threshold level, reducing said interference level utilizing second prescribed criteria until said measured second interference level is less than said second threshold level; and performing said geo-location process in said second operational system to obtain a location of said at least one mobile wireless terminal", claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The Petty et al patent (5,901,358) is cited to show a mobile vehicle geo-location system.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Theodore M. Blum whose telephone number is 703-305-1833. The examiner can normally be reached on Monday-Thursday.
